

**G**eza Gear introduces 2 Pro-Stretch Cover product lines. The Sport and the Pro Series. These covers are designed to perfectly fit and protect today's race, sport, sport-touring, standard, vintage, cruiser, Harley and GoldWing motorcycles. The Sport Series Cover is made from a patented ultra-light-weight stretch nylon composite fabric. This material is ideal for everyday indoor and outdoor use as well as trailering. The Pro Series Cover is made from a patented stretch cordura composite fabric. This material is ideal for every day sun exposure and for trailering in any weather condition. By protecting the most critical components, the covers remain compact and easily portable. Whatever your needs, consider the following details and you will agree we have the perfect cover for you!

### PERFECT FIT

Every Pro-Stretch Cover is meticulously constructed from one solid piece of our patented fabrics to flawlessly fit and protect your bike. The patented 4 POINT SECURING DESIGN keeps the cover from blowing off in windy conditions and protects against flapping and rubbing which results in fairing scratches and paint damage. All covers are designed for trailering use!

◀ Cinch cords tighten securely around mirror base. Cords can be tucked in when trailering.

Rear seat panel is double lined for durability and the elastic reinforced edge gives it a tight grip. ▶

Ballistic nylon straps secure firmly around foot pegs and accommodate cable locks. ▼

Rear angled front fairing panel with elastic reinforced edge pulls inward creating a tight weather-proof fit. ▶

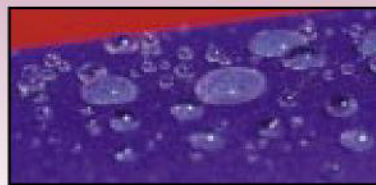

100% Custom Built  
Made in U.S.A.

### PERFECT PROTECTION

▶ Bonded with DUPONT TEFLON® the Pro-Stretch Cover is extremely water repellent.

Protects against bugs and rock dings when trailering and won't blow off. ▼

▶ Breathable fabric vents sun and engine heat and eliminates condensation problems. Water forms on the cover, not on your seat, tank and gauges.

Repels damaging UV rays so your bike won't fade. ▶
